

Remark of Head Delegation Indonesia

- Welcome the three delegation to the meeting
- In the 3rd meeting we need to remaind to : the main objective of our cooperative, i
e improve economic activities
- Focused activities need to shift from production to more on processing and trade
that may increase vallue added
- Research and tecknology needs also to address and emphasised to soundly more
economic and busines activities of the region
- Need to response to the global economic condition
 - ❖ In which export oportunity become more competitive
 - ❖ Many country trend to minimize import and boost the export
 - ❖ Domestic trading activities in maximizing mastering of farm producers
 - ❖ Find Cooperative area that may be more on substitute activities rather than
direct competitive
 - There are similiarity of our products
 - There are similiarity of our weakness
Such as problem of coordination and implementation /changing of person or
even policy on each countries
 - Joint promotion or exhibition of our products need to be explore to expand
our market within in and uot side of the region
- Better comunication betwen central and provincial goverment. Between goverment
and private sector, and between private to private sectors diffrent institutet
- The essence of economic cooperative is actually coop among our private sectors.
Bear in mine that our private sector on agriculture are still dominated by small and
medium enterprises
- The issue of environtment such as global warming, land degradation and even those
related to production and marketing of our organic or green products are need to be
explored. The growing demand of these organic product is increased especially with
in and outside of our sub region
- Finally, have a good discussion fruitfull result for the better need our economic
cooperative but also our friendship of three nation

Freshwater Cluster Industry Development in Ex - mining Ponds

Project proposal by Bangka Belitung Province

- Ex – Mining ponds usually called by kolong. Its special term of people from Bangka Belitung for “Lakes” which formed from ex tin mining
 - Nowadays there almost 887 kolong in Bangka Belitung 90% around 789 is used for bathing, cooking and drinking and 21,31% is using for recreation, fisheries and industry
- Based on early reserach only kolong which more than 25 years are safety to used and kolong which are conected to the river or sea more safer than unconnected kolong**
- In term of usage, kolong can be as :
 1. Restocking
 2. Tourism
 3. Irigation
 4. Ect
 - Indonesia also suggests that the cmmodity open to other strategic commodities such as rubber and kakao
 - Chairman suggest that new ... proposal will be finalized at the end of august

4.8 - 4.10 Environment

Ministry of enviroentment will take lead to merge the proposal from Thailand, after Thailand sending comment within 2 months

Thailand need time to study the proposals and give feed back within 2 monts communicate through email. At the same time Indonesia also axpect Malaysia comments, than take lead to produce merge proposal. Communication will be same through email, until new merge proposal finalized. Indonesia also take soft copy of PROPER (Program on performance of enviroentment rating for indusstry) to member countries who are interested on it
